

Assessing Policies to Facilitate Implementation of the New Standard Course of Study

Homework: Your team should consider the following questions related to policies and procedures and be prepared to discuss them at the Fidelity Process Session #2, in the spring of 2012.

- Find out how policies are created and/or changed in your LEA/Charter.
- Do you have policies in place to support implementation of the new standards?
- What policies have been updated and aligned to ensure successful implementation of the new standards?
- Are your school practices and procedures surrounding the Developing Local Curricula Process (DLCP) aligned with local school board and State Board of Education policies?
- Are your school practices and procedures surrounding DLCP consistent across schools in your LEA (or grade levels in your charter)?
